SUNNINGDALE NURSERIES

One of the most beautiful and interesting in the country

WINDLESHAM
SURREY

Telephone ASCOT 96

BUSINESS TERMS

NO PACKING AND CARRIAGE

British Isles, Channel Isles, Eire. Free delivery; no packing and carriage charges. 10% reduction will be allowed on plants when collected by customers at our Nurseries, by previous arrangement.

Foreign Countries. Prices subject to discount of 10%, but packing and carriage will be charged at cost.

Terms. All accounts are payable at Sunningdale and are due quarterly, nett. 2½% discount is allowed on orders of over £2, for payment within one month of invoice date.

If yours is a small order or a first order, will you kindly enclose remittance? And please give full name and address and nearest railway station.

Every plant, to the best of our belief, leaves our nursery in good condition and we cannot be held responsible for delay, damage or loss.

We advise despatch; if order is not to hand within ten days **notify us, and your local station (in writing).**

Visitors.—Visitors are always welcome at the Nursery where there are interesting plants to be seen all the year round. From the end of April to mid-June there is a magnificent show from the large specimen plants of Rhododendrons and Azaleas. The rose borders are at their best usually towards the end of June and onwards. The Nurseries are closed from 12 noon on Saturdays and for the whole of Sunday, but customers can be seen by special appointment after working hours.

The Nursery is on the north side of the A30 between Sunningdale and Bagshot.

SPECIAL PLANTS

for Garden Economy & Floral Art

INTRODUCTION

The following list represents a beginning to what we hope will be a popular collection of plants for gardeners and those who arrange flowers.

Apart from the list of "Decorative Plants" at the end, all plants are hardy here in Surrey, which is **not** particularly noted for its clement seasons. These plants have been selected for various reasons:

1. None require staking in normal conditions.
2. All will grow happily without frequent division.
3. Most have handsome leaves which create interest and contrast in the garden and are invaluable for cutting.
4. The foliage of many creates a mantle of greenery over the ground, thus obviating the necessity of digging and hoeing.
5. Most provide flowers of unusual shapes and colouring; the usual daisy-flowers are in the main excluded, especially as they normally have poor foliage.
6. All are perennial except where stated.

It will thus be seen that our new collection of 'Special Plants' fulfills the need of gardeners to reduce work, provides greater and longer interest in the garden, and gives the floral artist new material.

It has been impossible this season to print a fully descriptive and illustrated catalogue, but this we hope to do during 1958.

Prices cover packing and delivery

SECTION 1

HARDY PLANTS

	Doz.	Each
<i>Acanthus mollis</i>	18/-	2/-
— <i>spinosus</i>	36/-	3/6
<i>Aconitum fischeri</i>	—	2/6
— <i>lycoctonum</i>	—	2/6

SECTION 2

DECORATIVE PLANTS FOR CONSERVATORY AND TERRACE

The growing of decorative plants in pots or tubs both for use in the garden throughout the Summer and in the house during the Winter is a form of gardening rather neglected in the British Isles. Even one specimen tree or plant such as a *Datura* in a handsome pot will make all the difference in effect to a small garden in London or on a terrace in the country. The plants listed below all require Winter shelter, but in the case of the Agaves, these can be almost dried off from September to the following April, and merely require to be kept out of the frost and in the light. Reference has been included here to hardy items in our Tree and Shrub Catalogue since many of these can be stood out for the entire Summer and are easily forced for house decoration during the Winter. *Prunus mume* and the tree paeonies are particularly useful in this respect.

	Each
Agave americana	10/6
— marginata	15/-
— franzosinii	25/-
Azalea , see Rhododendron and Azalea Catalogue.	
Begonia corallina	7/6
— fuchsioides	7/6
— haageana	7/6
Camellia , see Tree and Shrub Catalogue.	
Canna iridiflora ehemannii	18/6
Cautleya lutea major	10/6
Datura chlorantha	15/-
— sanguinea	15/-
— suaveolens	15/-
— — plena	15/-
Eucalyptus , see Tree and Shrub Catalogue.	
Fascicularia bicolor	10/6
Fuchsia arborescens	15/-
— corymbiflora	10/6
— hardy, see earlier pages.	
Hedychium acuminatum spicatum	15/-
Hydrangea , see Tree and Shrub Catalogue.	
Iris confusa	7/6
Myrtus , see Tree and Shrub Catalogue.	
Paeonia , see earlier pages.	
Prunus mume , see Tree and Shrub Catalogue.	
Rhododendron , see Rhododendron and Azalea Catalogue.	
Senecio petasites	8/6
Tibouchina semidecandra	10/6
Viburnum , see Tree and Shrub Catalogue.
